Invitation to the project 'Forensic InQuest' – Forensic Medicine Knowledge Session

We are delighted to extend an invitation for the 'Forensic InQuest' project, a crucial session organized by the International Service Avenue of the Rotaract Club of the University of Colombo, Faculty of Arts.

The 'Forensic InQuest' aims to raise awareness about Forensic Medicine and Medical Detectives, emphasizing their pivotal role in crime investigation. This session holds paramount importance for university students, who represent the future of our nation, as it equips them with vital knowledge essential for understanding the complexities of crime scenes.

However, the significance of this event extends beyond Arts Faculty, as crime knowledge is not limited to a specific academia. Hence, we warmly welcome all interested students to join us, recognizing that awareness about forensic medicine and medical detectives is invaluable for every citizen.

The session is not only intended for local university students but also involves collaboration with the Rotaract Club of the Anna University India, who will join with us virtually.

We are honoured to have inform that Professor Muditha Vidanapathirana, Dean of Uwa Wellassa Medical Faculty and Professor of Forensic Medicine, will be our honourable guest speaker for the event.

Event Details:

Date: 28th March

Time: 11.00 a.m.

Location: No.302 Lecture Hall, Faculty of Arts, University of Colombo

We highly appreciate your cooperation given to us to make this event a success.
Thank you.
